Subject:

Merced County Association of Governments, Formal Amendment No. 17 to the 2002 Federal Transportation

**Improvement Program** 

### **SUMMARY**

### Metropolitan Planning Organization (MPO) level

Merced County Association of Governments was directed by its Governing Board on April 15, 2004 to amend the 2002 Federal Transportation Improvement Program to add projects to program Congestion Mitigation Air Quality (CMAQ) funding and add additional CMAQ funding to two existing projects.

This CMAQ programming action includes reprogramming existing CMAQ projects that are experiencing delivery delays into the 2004/05 fiscal year. This action includes adding new CMAQ projects to take the place of those experiencing delays. This action includes the addition of CMAQ funding to existing projects as requested by member jurisdictions. This action includes adding a CMAQ annual apportionment for the 2003/04 fiscal year. This action requires reprogramming STIP projects to coincide with the 2004 STIP Fund Estimate and target year funding levels. This action requires that the 2002 FTIP is determined to be fiscally constrained. This action requires a new air quality conformity determination due to the delay of STIP projects into future years. See Table 1 for CMAQ funding to be added to the 2002 FTIP by project.

Table  $1-{\rm New}$  CMAQ projects to be added to 2002 FTIP & additional funding for two existing projects

|         |              |         | Total Programmed   |     | \$9,023,819                  | \$7,988,787               | \$1,040,063                |  |  |  |                              |

Projects #1 & #7 were added to the FTIP administratively through FTIP amendment #18.

Table 2 shows CMAQ funding in the 2002 FTIP-CMAQ program by year. Tables #3 and #4 show all the projects that are included in amendment #17.

| 20500000030    | Transit Purchase 7 CNG buses             | addded \$2,324,000 in 05/06     |

## California State level

California is in the midst of a budget crisis with insufficient state revenues to pay for programmed transportation projects. The 2004 State Transportation Improvement Program (STIP) distributed in April 2004 does not include any new Regional Improvement Program (RIP) dollars for programming. In fact, the 2004 STIP requires respreading of the 2002 STIP fund estimate and delaying STIP projects for a 2-3 year period. MCAG's 2004 Regional Transportation Improvement Program (RTIP) programming proposal includes all of the 2002 RTIP/STIP projects, yet pushes out the construction year to coincide with 2004 STIP target year totals. Merced County does not have any other source of transportation funding such as a sales tax measure or a transportation impact fee. Delaying current STIP projects does not adversely affect the timely implementation of Transportation Control Measures (TCMs). Table 4 identifies the 2004 STIP programming proposal and project level changes from the 2002 STIP.

Table 4 – 2004 STIP/RIP programming changes

|                 | · CTIPITID (Q · · · · · · · · · · · · · · · · · ·          |  |
|-----------------|--|--|
| Schedule Delays | s in STIP/RTIP (Coincides with 2004 RTIP)                  | T  |
| 10500000016     | Campus Parkway   | move 03/04 funds to 05/06                                  |
| 10500000018     | RIP -RSTP/CMAQ match reserve                               | Lapsed 02/03 funds will return next cycle                  |
| 10500000024     | Campus/Healy 99 Interchange (aka Missions Ave Interchange) | move 03/04 funds to 05/06                                  |
| 10500000053     | Bradley Overhead Bridge Replacement                        | move ROW funds from 03/04 to 07/08 and delete construction |
| 10500000025     | Atwater Freeway  | move 03/04 funds to 05/06                                  |
| 10500000026     | Livingston Stage II Freeway                                | move 03/04 funds to 05/06                                  |

### Financial Constraint

The FTIP must be financially constrained with expenditures not exceeding reasonably available revenues. See appendix A for a Summary of Revenues and Expenditures showing the 2002 FTIP to be financially constrained. Included in this appendix is a Revenues and Expenditures table (Table #5) that demonstrates that the FTIP is financially constrained. It also shows the difference in programming of revenues versus expenditures from the original 2002 FTIP approved by FHWA/FTA on Oct. 4, 2002 to date. The second table (Table #6) in Appendix A gives an explanation of the differences between "Before & After" in the dollar amounts from the 2002 FTIP to date by funding program.

### Air Quality Conformity Analysis

As required by 40 CFR §93.104 an FTIP amendment requires a new conformity determination for the entire TIP before the amendment is approved by the MPO or accepted by DOT, unless the amendment merely adds or deletes exempt projects listed in 40 CFR §93.126 or §93.127. The State Highway projects included in the STIP are capacity increasing, non-exempt projects, therefore, a new air quality conformity analysis is required.

MCAG conducted a new air quality conformity analysis for amendment #17 to the 2002 FTIP with a positive finding of conformity with all emissions budgets passed. A draft of the Air Quality Conformity Analysis for Amendment #17 was circulated to interagency partners on May 17, 2004. A public hearing notice and notice of public review were

issued requesting review and comments on the document. The public review period will end on June 17, 2004 and culminate in the public hearing held during the MCAG Governing Board public meeting. A public hearing took place on June 17, 2004 without any public comments. The MCAG Governing Board adopted the Air Quality Conformity Analysis for Amendment No. 17 to the 2002 Federal Transportation Improvement Program on June 17, 2004 along with the FTIP amendment by Resolution No. 2004/06-17-02, Resolution of the Merced County of Governments to adopt formal amendment No. 17 to the 2002 Federal Transportation Improvement Program (FTIP); Update the financial constraint of the 2002 FTIP; and Adopt the Air Quality Conformity analysis for amendment No. 17 to the 2002 FTIP. Signed Resolution No. 2004/06-17-02 is enclosed for reference.

# **BACKGROUND**

On April 15, 2004, the Merced County Association of Governments (MCAG) Governing Board approved CMAQ programming changes by formal amendment to the 2002 Federal Transportation Improvement Program. This very complex formal amendment is required to program the annual carryover of unobligated CMAQ funds. A federal policy exists that does not allow an annual carryover of Obligational Authority (OA) federal funds such the CMAQ program, yet for the last twelve years (ISTEA and TEA-21) this policy has not been an issue for regional agencies as California has had a two billion dollar cash reserve. This California cash reserve was used to backfill statewide OA as needed. This cash reserve/OA policy decision was made at the State and Federal level and never brought down to the level of the local planning agencies. MCAG has programmed an annual carryover of unobligated CMAQ funds in each of the FTIP documents for the last twelve years. Due to the fiscal crisis, California no longer has a cash reserve, therefore, FHWA and FTA are concerned about fiscal constraint of the FSTIP. Transportation agencies are now allowed to program only the annual CMAQ apportionment.

It is important to note that the State of California has enacted legislation to ensure timely use of federal surface transportation funding (CMAQ, etc.). AB 1012 requires that transportation agencies obligate CMAQ and other federal program monies within a three-year period. MCAG receives annual notice of AB1012 "Use it or Lose It" funds and to date has obligated all funding. Per David Brewer of the California Transportation Commission staff, federal OA carryover policy supercedes California's AB1012 legislative policy requirements.

In addition, the State of California transferred unobligated statewide OA funds to the General fund to boost low fund balances. The 2004 STIP Fund Estimate includes repayment of OA to local agencies at \$50 Million a year for four years starting in 2005/06. It is unclear at this time how the repayment of OA will be distributed statewide to regional agencies.

## Impact on transportation agencies

Ultimately, this policy enforcement means that transportation agencies can program CMAQ funds up to the annual apportionment level, and these funds must be obligated in the same apportionment year or the funds are no longer accessible. Agencies do have an opportunity to spend greater than their annual apportionment amount by accessing OA statewide that other agencies have not obligated. This additional OA becomes available after June 1 of every year and is handed out on a first-come first-serve basis. Once the additional OA is determined to be available by Caltrans Headquarters then regional agencies can add new projects to the TIP, thereby obligating additional OA.

This policy implementation change has a significant impact on MCAG's ability to access 100% of the annual CMAQ apportionment and allow MCAG member agencies to access funds on projects that have been experiencing environmental delays. Without the opportunity to carryover CMAQ funds, MCAG will lose access to approximately \$5 million in funding that has yet to be programmed and/or obligated.

In October 2002, the 2002 Federal Transportation Improvement Program was approved without a 2003/04 CMAQ apportionment as MCAG was waiting for the next Federal Transportation Bill to be signed by Congress. TEA-21 expired on September 30, 2003 and has received three extension authorizations through June 30, 2004. Until the Federal Transportation Bill is signed, agencies are able to use historical apportionment fund amounts to extrapolate reasonably available funding for future years. These reasonably available funding totals will be changed to actual apportionment values once a federal bill is signed into law.

Formal Amendment No.17 is necessary to move out CMAQ projects that are currently programmed for Fiscal year 02/03, yet funds have not been obligated. Additionally, new CMAQ projects are being added to the 2002 FTIP that will allow MCAG to quickly obligate the annual CMAQ carryover funds prior to September 30, 2004. The new CMAQ projects are exempt from an air quality conformity analysis, yet the requirement of fiscal constraint triggers a new air quality conformity analysis.

MCAG is proposing to program a CMAQ apportionment for 2003/04 and obligate more than our annual apportionment including the annual CMAQ fund carryover. On April 1, 2004 the Department of Transportation notified all planning agencies to submit an Obligation Authority (OA) report by May 1, 2004 that outlines what federal funds (CMAQ, Regional Surface Transportation Program (RSTP), Regional Transportation Enhancement Activity (R-TEA) that will be obligated between May 1, 2004 and the end of this federal fiscal year. This letter also stated that it is anticipated that delivery of California's state share of FFY 2004 OA will be 100 percent, yet local delivery is approximately 43 percent as of May 31, 2004. Agencies are cautioned that project delivery should not be delayed due to a perceived lack of available OA. MCAG submitted an obligation plan and has notified our Caltrans District Local Assistance Engineer (DLAE) that we intend to obligate more than our annual apportionment.

# **Requested Action**

MCAG is requesting an expedited formal approval of this amendment by Caltrans, the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). Once this amendment is approved, MCAG member agencies will move forward very quickly to obligate 2003/04 CMAQ funds prior to September 30, 2004.

#### RESOLUTION NO. 2004/06-17-02

- RESOLUTION OF THE MERCED COUNTY OF GOVERNMENTS TO ADOPT FORMAL AMENDMENT NO. 17 TO THE 2002 FEDERAL TRANSPORTATION IMPROVEMENT PROGRAM (FTIP); UPDATE THE FINANCIAL CONSTRAINT OF THE 2002 FTIP; AND ADOPT THE AIR QUALITY CONFORMITY ANALYSIS FOR AMENDMENT NO. 17 TO THE 2002 FTIP
- WHEREAS, the Merced County Association of Governments (MCAG) is a Regional Transportation Planning Agency (RTPA) and a Metropolitan Planning Organization (MPO); and
- WHEREAS, the MPO is required to develop, maintain and endorse the 2002 Federal Transportation Improvement Program (FTIP) with a biennial program of projects for federal funding assistance; and
- WHEREAS, In order to maintain a current and up-to-date 2002 FTIP, amendments and minor adjustments are required; and
- WHEREAS, 40 CFR §93.104 states that an FTIP amendment requires a new conformity determination for the entire TIP amendment before the amendment is approved by the MPO or accepted by DOT, unless the amendment merely adds or deletes exempt projects listed in 40 CFR §93.126 or §93.127.
- WHEREAS, the 2002 FTIP prepared by MCAG is fiscally constrained with program revenues and expenditures and includes reasonably available apportionment estimates where actual programming figures are not available: and
- WHEREAS, Formal Amendment No. 17 to the 2002 FTIP is required to reprogram Congestion Mitigation Air Quality (CMAQ) projects into future years as they have experienced delivery delays; and
- WHEREAS, Formal Amendment No. 17 to the 2002 FTIP is required to add new CMAQ projects in the place of those projects experiencing delays, thereby, allowing MCAG to obligate the CMAQ annual carryover from prior fiscal years; and
- WHEREAS, Formal Amendment No. 17 conforms to the 2004 STIP Fund Estimate (FE), the 2004 Regional Transportation Improvement Program (RTIP) with related STIP project delays and the 2004 State Highway Operations and Protection Program (SHOPP); and
- WHEREAS, MCAG has fulfilled public involvement procedures and policies including the advertised public notice of availability and public hearing notice; and
- WHEREAS, Formal Amendment No. 17 and the Air Quality Conformity Analysis For Amendment No. 17 to the 2002 Federal Transportation Improvement Program was circulated for interagency review; and

#### NOW, THEREFORE, BE IT RESOLVED THAT:

- 1. The Merced County Association of Governments (MCAG) finds that the 2002 FTIP is financially constrained based on programming changes in Formal Amendment No.17; and
- 2. The Merced County Association of Governments (MCAG) finds that the 2002 FTIP conforms to federal regulations (40 CFR Parts 51 and 93) procedures for conformity determinations for transportation plans, programs, and projects and respective amendments;
- 3. The Merced County Association of Governments (MCAG) finds that the 2002 FTIP as amended to date and including amendment No. 17 conforms to the applicable State Implement Plan (SIP) for air quality; and
- 4. The Merced County Association of Governments formally adopts Amendment No. 17 to the 2002 FTIP with programming changes in the following funding categories: 1) State Highway/Regional Choice Program of Projects; 2) Congestion Mitigation and Air Quality (Non-Transit) Program of Projects; and 3) Congestion Mitigation and Air Quality (Transit) Program of Projects. All changes are shown in the California Transportation Improvement Program System (CTIPS) attachment to and made a part of this Resolution No. 2004/06-17-02.

The foregoing resolution was approved by the Merced County Association of Governments Governing Board on June 17, 2004 by Supervisor Correz-Keene who moved its adoption, which motion was duly seconded by Gabriault-Acosta and which was adopted by the following vote:

AYES; Supervisors Cortez-Keene, Kelsey, O'Banion, Nelson, Crookham, Mayors Amabile, Samra, Westlake, Council Members Abercrombie, Oliveira, Gabriault-Acosta NOES: None

ABSENT: None
